

# iPad Formatting Session

Dorset School 2016-2017

Rhiannon  
Sparkes

Mrs. Szollosy

Dorset Grade 5

Apple Distinguished Educator

# Apple ID for kids

- Your child will have their own unique Apple ID.
- The Apple ID is linked to a parent through Family Sharing.
- Family Sharing is set up by the parent who has their own Apple ID and can receive messages on an Apple device.

# Exceptions

- In case of divorce, please pick one parent to manage the Family Sharing and the iPad for the child.
- If the parent does not have an Apple ID or another Apple device we will register the iPad to the parent's name as an adult.

# iPad already set up?

- If your child already has an Apple ID and the iPad is set up you may have registered them as an adult user and fudged the birthdate.
- You may wish to create your child a new account as a child and join Family Sharing. Apps already purchased will not be lost if both accounts are registered to Family Sharing. Adults can also be added to your family sharing.
- You will reset the iPad, Settings, General, Reset

Do not give your child  
your Apple ID password.

I am sure you LOVE and TRUST your child -  
but everyone can make mistakes.

When you first  
open an  
iPad...

LBPSB\_MACAUTH

If your iPad is not picking up the wifi signal then I need to register the iPad at the school board.

# WiFi Address

Go to Settings, General, About,  
WiFi Address

It should look like this...

34:36:3\*:3\*:9C:5\*

Let me know and we will email  
the board.

7:54 AM

## Location Services

Location Services allows Maps and other apps and services like Find My iPad to gather and use data indicating your approximate location.

[About Location Services](#)

[Enable Location Services](#)

[Disable Location Services](#)

Enable Location Services so you can use Find my iPad...

But we will discuss this more later.

# Don't!

Click on Passcode Options and choose No Passcode.

The teachers need quick and direct access to the student's iPads. They cannot have a passcode on them.

The iPads will be periodically checked by teachers. They are not private.

## Apps & Data

- Restore from iCloud Backup >
- Restore from iTunes Backup >
- Set Up as New iPad >
- Move Data from Android >

### What does restoring do?

Your personal data and purchased content will appear on your device, automatically.

Now we will set this up as a new iPad.

Click “Don’t  
have an Apple  
ID”

10:55 AM

## Apple ID

Sign in with your Apple ID to use iCloud, iTunes,  
the App Store, and more.

Your Apple ID is the account you use to access  
all Apple services.

[About Apple ID and Privacy](#)

[Use different Apple IDs for iCloud & iTunes?](#)

Here you can  
start to create  
your child's  
free Apple ID.

## Date of birth

Your date of birth is used to determine which services to set up on this iPad.

Date of birth

2016-08-29

Once you put in the Date of birth, Apple will recognize this as a child and will direct you to do Family Sharing.

Family Sharing is easy to set up by a parent you already has an Apple ID and an Apple device.

May	26	2013
June	27	2014
July	28	2015
<b>August</b>	<b>29</b>	<b>2016</b>

## A parent must create your Apple ID

Ask a parent or guardian who has set up Family Sharing to sign in and create your account.

Apple ID

Password

[Skip This Step](#)

### How do I set up Family Sharing?

To set up Family Sharing, an adult should go to iCloud Settings on a device running iOS 8 or later and create a new family.

Once the family has been created, the adult can sign in on this device or their own device to create a new account for a child.

You can create an iCloud email for your child.

They can set their password. Please make sure to write it down.

## Ask the family organizer to sign in

You have signed in as Addison Foy "addison.foy@icloud.com".

The organizer of your family is Krista Muis. Only your family organizer can create an account for a child.

**Ask Krista to Sign In** >

**Skip This Step** >

The family organizer will be prompted to sign in. This will ensure that the child is allowed to be set up on this iPad.

# Parent's device.

These screen shots are taken from the parent's device.

Go to Settings, iCloud, Family, Add Family Member, Create an Apple ID for a child.

# Create an Apple ID for a child.

It will prompt you for the child's birthdate.

Enter a family member's name or email address.

Want to add a child who doesn't have an account?  
[Create an Apple ID for a child.](#)

q w e r t y u i o p  
a s d f g h j k l  
↑ z x c v b n m ↵  
123 😊 space @ . return

You will enter your child's first name and last name.

Create an iCloud email address for your child.

Keep in mind, this will be their Apple ID for life.

Create a password with your child. Make sure that it is typed in correctly and that you record it in case it is forgotten!

The teachers never keep a record of the Apple IDs.

It will now prompt you to that the child has joined your family sharing and that you can go back to the iPad to continue.

The screenshot shows the 'Create Apple ID' screen on an iPad. At the top, the status bar displays 'Bell LTE', '10:59 AM', and battery level. The screen title is 'Create Apple ID' with a back arrow on the left and 'Next' on the right. The main heading is 'Apple ID password'. Below it, instructions state: 'Choose a password memorable to both you and your child. It must be at least 8 characters and include a number, an uppercase letter, and a lowercase letter.' There are two input fields: 'Password' with a blue vertical bar and the text 'Required', and 'Verify' with the text 'Retype password'. A standard QWERTY keyboard is visible at the bottom of the screen.

## Ask the family organizer to sign in

You have signed in as Addison Foy "addison.foy@icloud.com".

The organizer of your family is Krista Muis. Only your family organizer can create an account for a child.

**Ask Krista to Sign In** >

**Skip This Step** >

The family organizer will be prompted to sign in. This will ensure that the child is allowed to be set up on this iPad.

## Diagnostics

Help Apple improve its products and services by automatically sending diagnostic and usage data. Diagnostic data may include location. You can also help App Developers improve their apps by choosing to share your app activity and crash data with them through Apple.

[About Diagnostics & Privacy](#)

[Send to Apple](#)

[Don't Send](#)

You can choose whatever makes you comfortable.

## App Analytics

Help app developers improve their apps by choosing to share your app activity and crash data with them through Apple.

[About App Analytics & Privacy](#)

[Share with App Developers](#)

[Don't Share](#)

You can choose whatever makes you comfortable.

When the child goes to the App store to purchase an app, a request is sent to the parent to accept the purchase.

The Apple ID set up is  
complete....

Now let's format the iPad.

# Restrictions

Settings, General,  
Restrictions

Enable Restrictions

You will be prompted to enter a code - your child must not know this code.

Scroll down to allowed content and set the restrictions.

# Location Services

It needs to stay on for Find my iPad, but we will restrict it.

All these apps do not need to be tracking your location.

As students open apps for the first time they will be prompted to allow location services for the app. They are instructed to click 'Don't Allow'.

If you scroll down in Location Services you will see Frequent Locations.

It will record every location that the iPad has been on wifi. This also constantly tracks your whereabouts using an iPhone.

Dangerous!

Turn it off.

# Acceptable Use

- All students and parents must have signed the acceptable use policy and the Google permission form.
- All students and parents must attend an iPad formatting session.
- iMessage is not permitted on the iPads.
- Game Centre and multi-player gaming is not permitted at all times.
- Social media apps are not permitted.
- Inappropriate games will be deleted. Non-educational games will be deleted if they are used during school or daycare hours.

 [Sign up with Office 365](#)

 [Sign up with Google](#)

We will register the students in class.

Parents can register online at home at  
[www.edmodo.com](http://www.edmodo.com)

The screenshot displays the Edmodo account settings interface. On the left is a navigation menu with the following items: Settings, Account, Students, and Notifications. The main content area shows two child profiles side-by-side. Each profile includes a profile picture, the child's name, a 'Username' field, a 'Relationship' dropdown menu, a 'Reset Password' button, and an 'Unlink Student' button with a checkbox. The first child is Isabel Szollosy with the username 'Isabelsz' and the relationship 'Mother'. The second child is Jane Szollosy with the username 'aszollosy01' and the relationship 'Mother'. A dashed box is visible at the bottom of the page, indicating a placeholder for a third child profile.

You can add multiple children to your account. Go into account setting and add your child's access code.

The screenshot displays the Edmodo interface. At the top left is the Edmodo logo, and at the top right is an 'Account' dropdown menu. On the left side, there is a sidebar for 'Rhiannon Szollosy Parent' with a 'Student Activity' section listing 'Isabel' and 'Jane', and an 'Add Student' button. The main content area is for 'Isabel Szollosy' and features a 'What's Due' section with a 'Posts' icon. Below this, there are tabs for 'All', 'Events', 'Assignments', and 'Quizzes'. The 'Quizzes' tab is active, showing a list of assignments. The first entry is a quiz by 'Ms. Lefebvre' assigned on 2015-01-13, due on 2015-01-19, titled 'Quiz: Évolution et sélection naturelle'. Below it, a submission by 'Isabel Szollosy' is shown as submitted on 2015-01-19, with a green checkmark icon and a 'View' button. The final entry shows the quiz graded by 'Ms. Lefebvre' on 2015-01-19, with a score of '15 / 15'.

You can see work that is assigned on Edmodo.

Remember, not all work will be assigned by Edmodo.

You have access to your child's results as they are posted.

# Dorset iPad Program

We are looking forward to a fantastic year ahead!
